```
# My first R script  
x <- 1:50  
  
plot(x, sin(x))
```

```
plot(x, sin(x), typ = "l", col = "green", lwd = 3, xlab = "Silly x axis",  
     ylab = "Sensible y axis")
```

```
#typ = type, col = color, lwd = line width, x and ylab = axis names
```
